

TwitterStorm:

@CDCgov revised opioid guidelines must be again clarified the guidelines are for opioid naive patients (not chronic pain patients as stated recently in said clarification) Why more misinformation? We need leadership; not games. #ViolationofaNation

@CIAAGOfficial is hopeful the @CDCgov correction is quickly spread to every #Insurer and #PBM to help painful disease patients recoup their lost medication rights as quickly as possible. #ViolationofaNation

@CIAAGOfficial thanks our Leadership to bring forth the @CDCgov clarification on their opioid guidelines. We need your support to ensure the @DEAHQ is informed to stop targeting our doctors or patients will continue to suffer. #ViolationofaNation

@CDCgov needs to stop placing blame on doctors. Their clarification of the opioid guidelines they stated “doctors are misapplying” the guidelines rather than taking ownership of the devastation caused by the CDC & other private, for profit enterprise. #ViolationofaNation

@CDCgov clarification is a great step forward. However, @Congress must investigate to ensure safety of the American people. Many Laws were broken to put these guidelines forth & the American people deserve justice. #ViolationofaNation

@CDCgov Pharmacists must be alerted to the #CDC Guideline correction so patients are finally able to receive their prescriptions without fear of an unqualified Pharmacist to interfere with patient care. #ViolationofaNation

@CDCgov many Insurance companies and state legislatures have weaponized the CDC Guidelines. What are you going to do to ensure your clarification is implemented and regulations based on these guidelines un-done? #ViolationofaNation

@CDCgov Insurer guidance on the #CDC Guideline correction is essential so patients will be able to fill their prescriptions without inappropriate denials and prior authorizations delaying or denying critical patient care. #ViolationofaNation

@CDCgov has finally clarified the opioid guidelines must not be applied improperly. Therefore, any and all legislation passed in the name of these guidelines must be revisited and revised. #ViolationofaNation

@CIAAGOfficial says NO to PDMP in Missouri. Please Call/Email all MO Senators & Ask them to Vote NO to all PDMP bills. #ViolationofaNation
